

# Accessibility Statement

The operator of this website, the digital agency **DigiBoost s.r.o.**, declares that these pages strive for maximum accessibility of content and functionality for all internet users.

In creating and managing this website, we follow accessibility best practices and adhere to the internationally recognized **WCAG 2.1** (Web Content Accessibility Guidelines) standard at level AA.

**Data Presentation Information:** The website is built using HTML5 markup language and CSS3 cascading styles. The layout and control of the pages are designed so that data remains accessible even when styles are disabled. The website is fully responsive, and its content automatically adapts to the screen size of the device used (computer, tablet, smartphone).

**Keyboard Shortcuts and Navigation:** No non-standard keyboard shortcuts are defined on this website that could conflict with browser settings or assistive technologies. The web can be navigated using standard keyboard controls (Tab, Enter, arrows).

**Contact the Web Administrator:** Please send your suggestions, feedback, or information about problems with the display of these pages to [marek.joska@digiboost.cz](mailto:marek.joska@digiboost.cz). Our goal is to make the web accessible to everyone, and we will address all feedback promptly.
